

Kierly Brimm

What is Matter? 40 min

Objective:

Students will learn the three stages of matter.

Big Idea:

In April, clouds make liquid and gases. Is that true?

1. Warm Up / Anticipatory 5 min

1. View Wonder of the Day #276.
2. Gather in whole class/group or do it yourself.

2. Investigation and New Learning 30 min

Whole class/group will:

- Make changes to stages of matter
- Learn about solids and liquids.
- Make ideas and reflect.

3. Review & Check for Understanding 30 min

Check and reflect what you have learned.
